
WHAT IS IT?

DEMOGRAPHICS is a generic term that applies to a wide body of highly-specific data about the physical-sociological-economic makeup of the population, housing, income and employment found in all geographic areas of the United States and its territories. Population and housing data are collected by the U.S. Bureau of Census at the beginning of every decade and, upon special request by state, county and local units of government, in the middle of each decade. Economic data are collected by the Bureau in the 8th year of each decade and reported in the following year.

WHERE DOES IT APPLY?

The smallest geographic area for which demographic data are collected and applied is the Census Block, typically, corresponding to individual city blocks bounded by streets; however, blocks – especially in rural areas – may include many square miles and may have some boundaries that are not streets. Block data are aggregated up to larger geographic units covering Block Groups, Census Tracts, Place, County, Congressional District, State, Standard Metropolitan Statistical Area, Native American (Indian, Alaskan, Hawaiian) Area, and others.

Demographic data form the statistical building blocks of community.

The most manageable geography for census data is the Census Tract, 45 of which compile the whole of Scottsdale's municipal area. These 45 tracts contain a total of 2,363 individual census blocks.

WHO NEEDS TO USE IT?

Demographic data are used by all members and sectors of the community, both public and private, to provide a better understanding of who, what and where we are now, were in the past, and will be in the future. Public agencies and non-profit organizations use demographic data to aid in planning for current and future service operations and facilities. Businesses use the data to define, analyze and project existing and prospective market areas and characteristics and supply-demand dynamics.

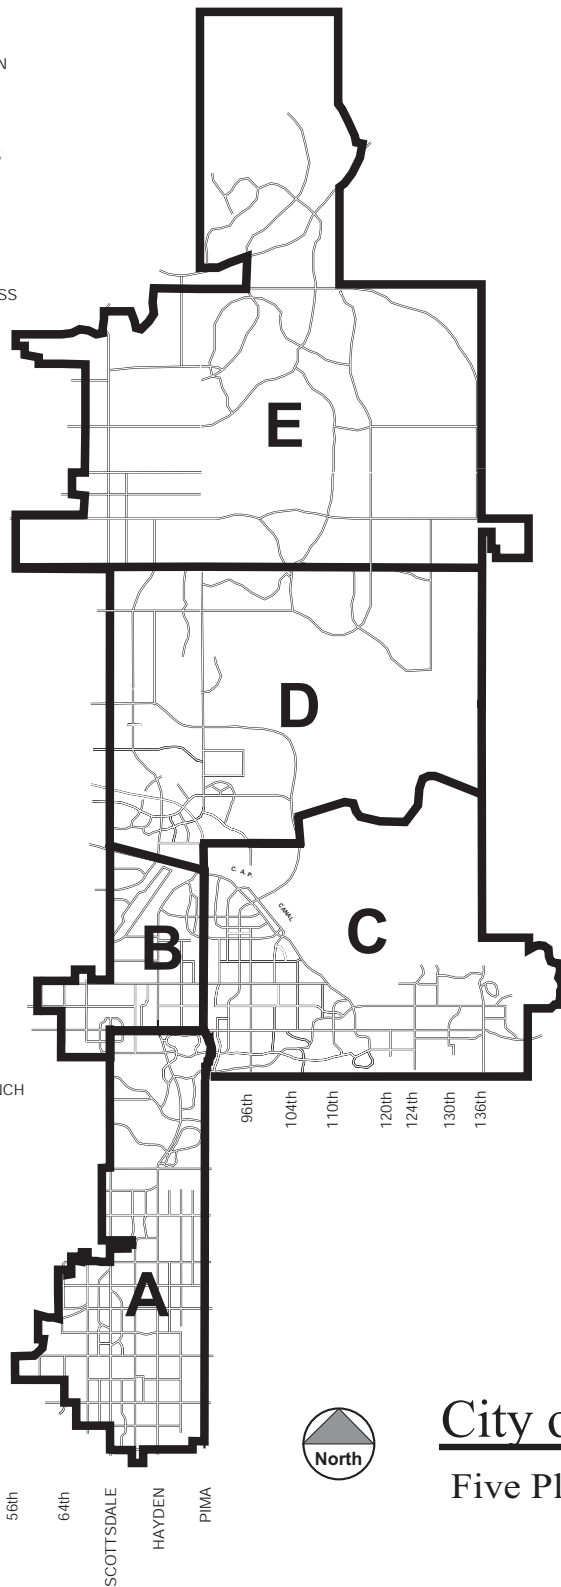

WHY WAS THIS DATA RESOURCE DEVELOPED?

This specific demographic data resource was developed to provide a central, accessible resource that would serve most of the many relevant data inquiries made on a daily basis.

KEY POINTS?

1. The data are easy to access and arrayed in simple, understandable and printable formats.
2. The data in this resource are presented for each of Scottsdale's 45 Census Tracts, aggregated to the city's 5 primary Planning Zones, and for the whole city. The Census Tract and Planning Zone data are arrayed in 3-page summary profiles, and the Whole City data are in a 4-page profile. The profiles are titled:
 - a. General Demographic Characteristics
 - b. Selected Socio-Economic Characteristics (the Whole City has separate profile pages for Social and Economic Characteristics)
 - c. Selected Housing Characteristics
3. A Planning Zones Key Map and Census Tract Key Map are included for easy geographic reference.

ZONE A includes the Downtown Business/ Entertainment District, the Indian Bend Park System, and the most mature neighborhoods in the community

ZONE B includes the Scottsdale Airpark, the fastest growing and one of the three largest employment centers in the metropolitan area

ZONE C covers the East Shea area, Scottsdale Ranch, McDowell Mountain Ranch, and part of the McDowell Sonoran Preserve

ZONE D includes Grayhawk, DC Ranch, the Pinnacle Peak and Desert Highlands communities, several Troon communities, the Sonoran Regional Core employment center along Loop 101 Freeway, and the northern part of the McDowell Sonoran Preserve

ZONE E includes Troon North, Estancia, Terra Vita, the Boulders, Desert Mountain, Legend Trails, and 16,000-acres of State Trust Lands designated for the McDowell Sonoran Preserve
